

**Gregory A. FREIMAN**

**LIST OF PUBLICATIONS**

**BOOKS**

1. G.A. Freiman  
Foundations of a Structural Theory of Set Addition.  
Kazan. Gos. Ped. Inst., Elabuz. Gos. Ped. Inst., Kazan, (Russian) 140 pp. (1966).
2. G.A. Freiman  
Foundations of a Structural Theory of Set Addition.  
Translations of Mathematical Monographs, Vol. 37. Amer. Math Soc., Providence, R.I., 108 pp. (1973).
3. G.A. Freiman (Editor)  
Number-Theoretic Studies in Markov Spectrum and in the Structural Theory of Set Addition.  
Kalinin. Gos. Univ., Moscow, (Russian) 144 pp. (1973).
4. G.A. Freiman  
Diophantine Approximations and the Geometry of Numbers (Markov's Problem).  
Kalinin Gos. Univ., Kalinin, (Russian) 144 pp. (1975).

**ARTICLES**

1. G.A. Freiman  
On one variant of Waring's problem.  
Vestnik Mos. Univ. 3, (Russian) 3-12 (1949).
2. G.A. Freiman  
On the exponential density of sequences.  
Izvestiya Acad. Nauk. SSSR. Ser. Mat. 16, (Russian) 385-388 (1952).
3. G.A. Freiman  
An elementary method of solution of problems on the partition of numbers into an unbounded number of summands.  
Trudy Moskov. Mat. Obsc. 4, (Russian) 113-124 (1955).
4. G.A. Freiman  
Inverse problems of additive number theory.  
Uc. Zap. Kazan. Univ. 115, 14, (Russian) 109-115 (1955).

5. G.A. Freiman  
Inverse problems of additive theory of numbers.  
Izv. Akad. Nauk. SSSR. Ser. Mat. 19, (Russian) 275-284 (1955).
6. G.A. Freiman  
An elementary method of proof of limit theorems of the theory of probability.  
Vestnik Leningrad Univ. 11, 1, (Russian) 57-73 (1956).
7. G.A. Freiman  
On the theorems of Poincare and Perron.  
Uspehi Mat. Nauk (N.S.) 12, 3(75), (Russian) 241-246 (1957).
8. G.A. Freiman  
Waring's problem with an increasing number of terms.  
Elabuz. Gos. Ped. Inst. Ucen. Zap. 3, (Russian) 105-119 (1958).
9. G.A. Freiman  
Dense sequences in the theory of partitions.  
Elabuz. Gos. Ped. Inst. Ucen. Zap. 3, (Russian) 120-137 (1958).
10. A.A. Drosdova, G.A. Freiman  
The estimation of certain arithmetic functions.  
Elabuz. Gos. Ped. Inst. Ucen. Zap. 3, (Russian) 160-165 (1958).
11. G.A. Freiman  
The addition of finite sets. I  
Izv. Vyss. Ucebn. Zaved. Matematika 6(13), (Russian) 202-213 (1959).
12. G.A. Freiman  
Inverse problems in additive number theory. On the addition of sets of residues with respect to prime modulus.  
Dokl. Akad. Nauk SSSR 141, (Russian) 571-573 (1961).
13. G.A. Freiman  
Inverse problems in additive number theory VI. On the addition of finite sets III.  
Izv. Vyss. Ucebn. Zaved. Matematika 3(28), (Russian) 151-157 (1962).
14. G.A. Freiman  
Inverse problems of additive number theory VII. Additions of finite sets IV. The method of trigonometric sums.  
Izv. Vyss. Ucebn. Zaved. Matematika 6(31), (Russian) 131-144 (1962).
15. G.A. Freiman  
On the addition of finite sets.  
Dokl. Akad. Nauk SSSR 158, (Russian) 1038-1041 (1964).
16. G.A. Freiman  
Inverse problems of additive number theory VIII. On a conjecture of P. Erdos.  
Izv. Vyss. Ucebn. Zaved. Matematika 3(40), (Russian) 156-169 (1964).

17. G.A. Freiman  
Inverse problems of additive number theory IX. The addition of finite sets V.  
Izv. Vyss. Uceb. Zaved. Matematika 6(43), (Russian) 168-178 (1964).
18. G.A. Freiman  
Inverse problems of additive number theory.  
Trudy IV Vsesous. Matemat Sjezda, Leningrad 1961, T.II Izelat "Nauka", Leningrad,  
142-146 (1964).
19. G.A. Freiman, A.A. Judin  
On the Markov spectrum.  
Litovsk. Mat. Sb. 6, (Russian) 443-447 (1966).
20. G.A. Freiman  
Non-coincidence of the spectrae of Markov and of Lagrange.  
Mat. Zametki 3, (Russian) 195-200 (1966).
21. G.A. Freiman, G.V. Pavlova  
The part of the Markov spectrum of measure zero. Number-theoretic studies in the  
Markov spectrum and in the structural theory of set addition.  
Kalinin. Gos. Univ. Moscow, (Russian) 79-86 (1973).
22. G.A. Freiman  
The initial point of Hall's ray.  
Kalinin. Gos. Univ. Moscow, (Russian) 87-120 (1973).
23. G.A. Freiman, A.A. Judin  
The general regularities of additive number theory.  
Kalinin. Gos. Univ. Moscow, (Russian) 135-147 (1973).
24. G.A. Freiman, A.A. Judin, D.A. Moskvina  
Inverse problems of additive number theory and local limit theorems for lattice random  
variables.  
Kalinin. Gos. Univ. Moscow, (Russian) 148-162 (1973).
25. G.A. Freiman, V.P. Pigarev  
The relation between the invariants  $R$  and  $T$ .  
Kalinin. Gos. Univ. Moscow, (Russian) 172-174 (1973).
26. G.A. Freiman  
Groups and the inverse problems of additive number theory.  
Kalinin. Gos. Univ. Moscow, (Russian) 175-183 (1973).
27. G.A. Freiman, A.A. Judin, D.A. Moskvina  
Structural theory of set addition and local limit theorems for independent lattice ran-  
dom variables.  
Teor. Veroyatnost. i Primenen. 19, (Russian) 52-62 (1974).

28. A.S. Fomin, G.A. Freiman  
Local limit theorem for series equally distributed lattice random variables.  
Vilnius University, Tez. Dokladov Vsesouznoy Conf., Vilnius 287-288 (1974).
29. A.A. Berstein, G.A. Freiman  
Analytical methods of discrete optimization.  
Zely i Resoursy w dologsrocnom planirovaniy, Moskva, ZEMJ, (Russian) 89-105 (1979).
30. P.L. Buzytsky, G.A. Freiman  
Analytical methods in integer programming.  
Moskow, ZEMJ, (Russian) 48 pp. (1980).
31. P.L. Buzytsky, G.A. Freiman  
Analytical methods in combinatorial problems.  
Izv. Acad. Nauk. SSSR, Ser. Tech. Kibern. 2, (Russian) 2-12 (1980).
32. G.A. Freiman  
An analytical method of analysis of linear Boolean equations.  
Ann. of the N. Y. Acad. Sci. 337, 97-102 (1980).
33. P.L. Buzytsky, G.A. Freiman  
On a possibilities of solving combinatorial problems by analytical methods.  
Ann. of the N. Y. Acad. Sci. 337, 103-117 (1980).
34. G.A. Freiman  
On two and three element subsets of groups.  
Aequat. Mathem. 22, 140-152 (1981).
35. L.V. Brailovsky, G.A. Freiman  
On two-element subsets in groups.  
Ann. of the N. Y. Acad. Sci. 373, 183-190 (1981).
36. P.L. Buzytsky, G.A. Freiman  
Integer programming and number theory.  
Ann. of the N.Y. Acad. Sci. 373, 191-201 (1981).
37. P. Buzytsky, G.A. Freiman  
An effective formula for the number of solutions of system of two 0.1-equations.  
Discr. Appl. Math. 6, 127-133 (1983).
38. L.V. Brailovsky, G.A. Freiman  
Groups with small cardinality of the cubes of their two element subsets.  
Ann. of the N.Y. Acad. Sci. 410, 75-82 (1983).
39. P.L. Buzytsky, G.A. Freiman  
An effective formula for the number of solutions of a system of 0.1-linear equations.  
Ann. of the N.Y. Acad. Sci. 410, 83-90 (1983).

40. G.A. Freiman  
Nonclosed semigroups with cancellation.  
Ann. on the N.Y. Acad. Sci 410, 91-98 (1983).
41. G.A. Freiman  
On the measure of large trigonometric sums.  
Ann. of the N.Y. Acad. Sci. 452, 363-371 (1985).
42. G.A. Freiman  
What is the structure of  $K$  if  $K + K$  is small?  
Lecture Notes in Mathematics 1240, 109-134 (1987).
43. G.A. Freiman, A. Heppes, B. Uhrin  
A lower estimation for the cardinality of finite difference sets in  $R^n$ .  
Problems of Computer Science 202, 63-73 (1987).
44. G.A. Freiman, H. Halberstam  
On a product of sines.  
Acta Arithmetica XLIX, 377-385 (1988).
45. G.A. Freiman, L. Levitin, E. Lipkin  
A polynomial algorithm for constructing families of  $k$ -independent sets.  
Discrete Math. 70, 137-147 (1988).
46. G.A. Freiman, B.M. Schein  
Group and semigroup theoretic considerations inspired by inverse problems of additive number theory.  
Lecture Notes in Mathematics 1320, 121-140 (1988).
47. N. Alon, G.A. Freiman  
On sums of subsets of a set of integers.  
Combinatorica 8 (4),297-306 (1988).
48. G.A. Freiman  
On extremal additive problems of Paul Erdos.  
Ars Combinatoria 26B, 93-114 (1988).
49. M. Chaimovich, G. Freiman, Z. Galil  
Solving dense subset-sum problems by using analytical number theory.  
Journal of Complexity 5, 271-282 (1989).
50. G.A. Freiman, P. Erdos  
On two additive problems.  
Journal of Number Theory 24, 1-12 (1990).
51. L.V. Brailovsky, G.A. Freiman  
On a product of finite subsets in a torsion-free group.  
J. of Algebra 130, 462-476 (1990).

52. G.A. Freiman  
Subset-sum problem with different summands.  
Congressus Numerantium 70, 207-215 (1990).
53. L. Brailovsky, G. Freiman, M. Herzog  
Special elements in groups.  
Proceedings of the Second International Group Theory Conference, Supplemento ai Rendiconti del Circolo Matematico di Palermo, Bressanone-Brexen, June 11-17, 1989, Ser II, no. 23, 33-42 (1990).
54. G.A. Freiman  
Transfer-matrix of small order.  
Preprint, IASSNS-HEP-90/65, 4 (1990).
55. G.A. Freiman, B.M. Schein  
Interconnections between the structure theory of set addition and rewritability in groups.  
Proc. of Amer. Math. Soc. 113, n.4, 899-910 (1991).
56. Ya.G. Berkovich, G.A. Freiman, C. Praeger  
Small squaring and cubing properties for finite groups.  
Bull. Australian Math. Soc. 44, n.3, 429-450 (1991).
57. G.A. Freiman  
Sumsets and powers of 2.  
Colloquia Mathematica Societatis János Bolyai, 60, Budapest (Hungary), 279-286 (1991).
58. G.A. Freiman, H. Halberstam, I. Ruzsa  
Integer sum sets containing long arithmetic progressions.  
J. London Math. Soc. (2) 46, 193-201 (1992).
59. G.A. Freiman, B.M. Schein  
Structure of  $R(3, 3)$ -groups.  
Israel Journal of Mathematics 77, 17-31 (1992).
60. G.A. Freiman  
On the structure and the number of sum-free sets.  
Asterisque 209\*\*, 195-201 (1992).
61. G.A. Freiman  
New analytical results in subset sum problem.  
Discrete Mathematics 114, 205-218 (1993).
62. G. Freiman, J. Pitman  
Partitions into distinct large parts.  
J. Austral. Math. Soc. Ser. A 57(3), 386-416 (1994).

63. J-M. Deshouillers, G.A. Freiman  
On an additive problem of Erdős and Straus, 1.  
Israel Journal of Mathematics 92, 33-43 (1995).
64. G. Freiman  
On solvability of a system of two boolean linear equations.  
Number Theory: New York Seminar, 1991-1995, Springer, 135-150 (1996).
65. G.A. Freiman  
Asymptotic formula for a partition function  $q(n)$ .  
Technical Report 3-98, Tel Aviv University, 1-19, (1998).
66. G. Freiman  
Structure theory of set addition.  
Structure theory of set addition, Asterisque, 258, 1-33 (1999).
67. J-M. Deshouillers, G.A. Freiman.  
On an additive problem of Erdős and Straus, 2.  
Structure theory of set addition, Asterisque, 258, 141-148 (1999).
68. J-M. Deshouillers, G.A. Freiman, Vera Sós, M. Temkin  
On the structure of sum-free sets, 2.  
Structure theory of set addition, Asterisque, 258, 149-161 (1999).
69. G. Freiman, L. Low, Jane Pitman  
Sumsets with distinct summands and the conjecture of Erdős-Heilbronn on sums of residues.  
Structure theory of set addition, Asterisque, 258, 163-172 (1999).
70. J-M. Deshouillers, G. Freiman, W. Moran  
On series of discrete random variables, 1. Real trinomial distributions with fixed probabilities.  
Structure theory of set addition, Asterisque, 258, 411-423 (1999).
71. J.-M. Deshouillers, G.A. Freiman, A.A. Yudin  
On bounds for the concentration function, 1.  
Structure theory of set addition", Asterisque, 258, 425-436 (1999).
72. G. Freiman, S. Litsyn  
Asymptotically exact bounds on the size of high-order spectral-null codes.  
IEEE Transactions on Information Theory, 45(6), 1798-1807 (1999).
73. A.M. Vershik, G.A. Freiman, Yu.V. Yakubovich  
Local limit theorem for random partitions of positive integers.  
Probability Theory and Applications, 44(3) (Russian), 506-525 (1999).
74. G. Freiman, A. Geroldinger  
An addition theorem and its arithmetical application.  
Journal of Number Theory, 85, 59-73 (2000).

75. Jean-Marc Deshouillers, Gregory A. Freiman, Alexander A. Yudin  
On bounds for the concentration function II.  
Journal of Theoretical Probability, 14(3), 813-820 (2001).
76. G.A. Freiman  
Structure theory of set addition. II. Results and problems.  
Paul Erdős and his Mathematics. I, Budapest (Hungary), 1998. Budapest, 2001, pp. 1-18. Bolyai Society Mathematical Studies X.
77. G. Freiman, B. Granovsky  
Asymptotic formula for a partition function of reversible coagulation-fragmentation processes.  
Israel Journal of Mathematics, 130, 259-279 (2002).
78. J-M. Deshouillers, G. Freiman  
A step beyond Kneser's theorem for abelian finite groups.  
Proceedings of the London Math. Soc., (3) 86, 1-28 (2003).
79. Jean-Marc Deshouillers, Gregory A. Freiman, Alexander A. Yudin  
An application of structure theory of set addition to a question in Ergodic theory.  
DIMACS Series in Discrete Mathematics and Theoretical Computer Science, 64, 53-60 (2004).
80. Gregory A. Freiman, Simon Litsyn, Alexander Yudin  
A method to suppress high peaks in BPSK-modulated OFDM signal.  
IEEE Transactions on Communications, (9) 52, 1440-1443 (2004).
81. Jean-Marc Deshouillers, Gregory A. Freiman  
When subset-sums do not cover all the residues modulo  $p$ .  
Journal of Number Theory, Vol.104, 2, 255-262, February (2004)
82. Gregory A. Freiman, Boris L. Granovsky  
Clustering in coagulation-fragmentation processes, random combinatorial structures and additive number systems: asymptotic formulae and zero-one law.  
Transactions of the American Math. Soc., (6)357, 2483-2507 (2004).
83. Gregory A. Freiman, Alexander A. Yudin  
The interface between probability theory and additive number theory (Local Limit Theorems and Structure Theory of Set Addition).  
Amer. Math. Soc. Transl., (2) Vol. 217, 51-72 (2006).
84. Jean-Marc Deshouillers, Gregory A. Freiman  
On sum-free sets modulo  $p$ .  
Functiones et Approximatio XXXV (2006), 51-59.
85. Gregory A. Freiman, Yonutz V. Stanchesu  
On a Kakeya-type problem.  
Functiones et Approximatio XXXVII.1, 131-148 (2007).

86. Gregory A. Freiman  
On the detailed structure of sets with small additive property.  
Combinatorial Number Theory and Additive Group Theory,  
Series: Advanced Courses in Mathematics - CRM Barcelona, 233-239 (2009).
87. Gregory A. Freiman  
Inverse Additive Number Theory XI.  
Long arithmetic progressions in sets with small sumsets.  
Acta Arithmetica, Vol.137, n.4, 325-331, (2009).
88. Gregory A. Freiman, Yonutz V. Stanchescu  
On a Kakeya-type problem II.  
Functiones et Approximatio, 41.2, 167-183,(2009).
89. Gregory A. Freiman, Yonutz V. Stanchescu  
Sets with several centers of symmetry.  
International Journal of Number Theory, Volume 7, No. 5 (2011), 1115-1135.
90. Gregory A. Freiman  
On finite sumsets of non-abelian groups with small doubling, Proceedings of the American Mathematical Society, *to appear*.
91. Gregory A. Freiman, D. Grynkievich, O. Serra, Y. V. Stanchescu  
Inverse additive problems for Minkowsky sumsets I, 1-30, *submitted*.
92. Gregory A. Freiman, D. Grynkievich, O. Serra, Y. V. Stanchescu  
Inverse additive problems for Minkowsky sumsets II, Journal of Geometric Analysis, 1-20, *to appear*.
93. Gregory A. Freiman, M. Herzog, P. Longobardi, M. Maj  
Small doubling in ordered groups, 1-12, *submitted*.
94. Gregory A. Freiman, A.A. Yudin  
About the Measure of Large Values of the Modulo of Trigonometric Sum,  
*to be submitted*.
95. Gregory A. Freiman  
Inverse Additive Number Theory. Results and Problems.  
*to be submitted*.
